

MOS-50

PCT

Professional Coating
Technologies, Inc.

WE PROTECT YOUR WATER

General Description:

MOS-50 is our parking Lot Sealer. It features a liquid membrane designed to spray over existing asphalt parking surfaces for rejuvenation purposes. Once applied, our MOS-50 completely seals any cracks and binds all loose aggregate on the deteriorating surface providing a tighter, crack free, water proof surface. This material is easily applied via a distributor truck, hand wand, and or squeegee. MOS-50 is environmentally friendly containing no cold tar. It has also been approved by UL, passing all standards to be in contact with drinking water.

Directions:

- 1.Repair area affected by potholes
- 2.Remove all debris via street sweeper, or hand sweep
- 3.Apply at a rate of .12-.18 gallons per sq yd via distributor truck, hand wand, or hand squeegee
- 4.Allow 24hrs for a full cure before re-opening the lot for use
- 5.After lot is completed completely clean the tank with water and approved solvent.
